

MILL-ROSE

Laboratory/Scientific Brushes

Laboratory & Scientific Brushes

Mill-Rose is a leading manufacturer of laboratory and scientific brushes. We have a complete selection of high-quality twisted wire brushes for hospital and scientific use. Mill-Rose laboratory and scientific brushes are ideal for cleaning glass or plastic test tubes, centrifuge tubes, flasks, graduated cylinders, beakers, containers, pipette, vials, carboys, and bottles. Our design and manufacturing experience makes us the ideal partner for solving your laboratory and scientific brush requirements. Don't hesitate to ask for special diameters, or special shapes and lengths.

Test Tube Brushes - Radial End, Tied Tufted End

Mill-Rose test tube brushes feature white bristles with a radial tip or tied, nylon tufted end securely fastened in galvanized wire.

Tied Tufted End

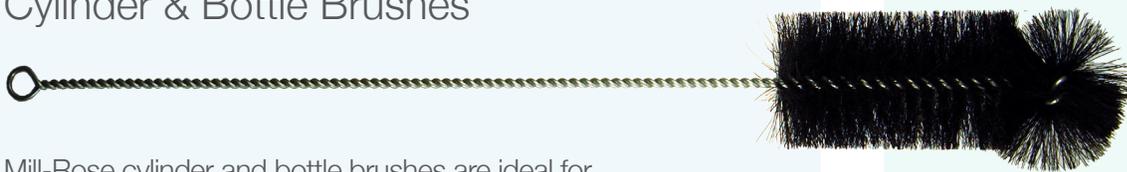

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
05130	White Bristle	3"	3/4"	9"
05135	White Bristle	6-1/2"	3/4"	10-1/2"
05140	White Bristle	6-1/2"	1-1/4"	10-3/4"

Radial End

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
05105	White Bristle	3"	1/2"	8"
05110	White Bristle	4"	1-3/8"	11"
05115	White Nylon	3-1/2"	3/4"	9"
05120	White Nylon	4"	1-3/8"	11"

Cylinder & Bottle Brushes

Mill-Rose cylinder and bottle brushes are ideal for cleaning bottles, cylinders and large test tubes. These bottle brushes feature a full radial-end tip that promotes effective cleaning and reduces scratching of glass and plasticware. Nylon or black bristles are securely fastened in twisted, galvanized wire with an end loop.

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
05150	Black Bristle	5"	2"	13"
05155	Black Nylon	5"	2"	16"
05160	Black Bristle	6"	2-3/8"	20"

Centrifuge Brushes

The centrifuge brush design is ideal for cleaning centrifuge tubes, micro tubes, and a variety of other containers. These centrifuge brushes feature a black nylon tuft for added cleaning effectiveness.

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
05170	White Bristle	3"	1" - 1-3/4"	9"
05175	White Bristle	3-1/2"	1/2" - 13/16"	9"
05180	White Bristle	4-1/2"	3/4" - 1-1/2"	12"

Babcock Milk Test Bottle Brush

Mill-Rose Babcock milk test bottle brushes feature long bristles that compress to fit through the narrow bottleneck and then expand for washing the bottle body. Short dense bristles along the stem provide close scrubbing to help remove stubborn residue.

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
05250	Black Bristle	3-1/4"	1-1/2" Large Part 1/4" Neck Part	9"

Beaker, Jar & Cylinder Brushes

Mill-Rose beaker, jar and cylinder brushes are ideal for cleaning beakers, jars, and large graduated cylinders. This extra-large beaker brush has a wood handle with tufted end and black bristles.

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
05190	Black Bristle	5-1/2"	3-1/4"	13" (4 rows)
05195	Black Bristle	5"	2-3/8"	16" (2 rows)
05200	Black Bristle	6"	3"	16" (4 rows)

Volumetric Flask Brush

Volumetric flask brushes are made with white bristles seated in galvanized wire with a plastic handle. The curved portion of this volumetric flask brush offers flexibility enabling the brush to reach and clean all parts of the flask.

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
05220	White Bristle	3-1/2"	1-3/8"	12"
05225	White Bristle	4"	1-1/2"	14"
05230	White Bristle	5"	1-3/4"	17"

Pipette Brush

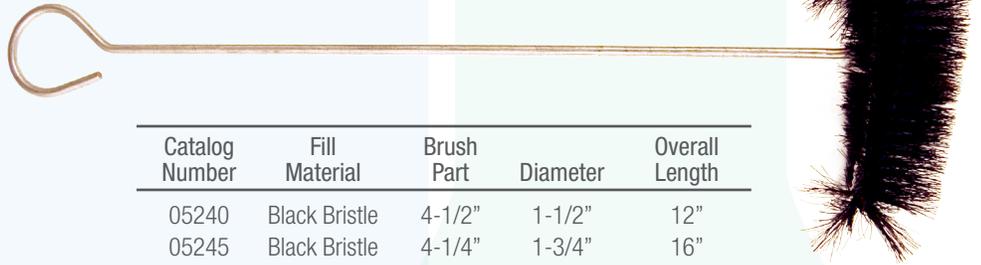

Mill-Rose pipette brushes have a twisted galvanized wire with an end loop. This soft white nylon brush is designed specifically for cleaning pipettes. The nylon bristles are mounted in twisted galvanized wire. Two different brush widths are tapered to provide maximum cleaning.

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
05210	Soft White Nylon	7-1/4"	1/4" - 3/4" Step	17"

More Laboratory & Scientific Brushes

Flask or Nurse Bottle Brush

Mill-Rose flask or nurse bottle brushes feature a black bristles with a double tufted end for scrubbing and cleaning.

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
05240	Black Bristle	4-1/2"	1-1/2"	12"
05245	Black Bristle	4-1/4"	1-3/4"	16"

Beaker Brushes

Mill-Rose Beaker brushes feature an extra-large brush ideal for cleaning beakers. These beaker brushes are spiral wound on to grooved finished hardwood handle. A heavy double-tufted end cleans residue from the bottom of beakers.

Catalog Number	Fill Material	Brush Part	Diameter	Overall Length
73790	Black Nylon	4"	2-1/2"	12"
73792	White Nylon	4"	2-1/2"	12"
73794	White Nylon	5"	2-7/8"	16"
